Regression Models 1.1 Introduction Regression models form the core of the discipline of econometrics. Although ... tion method that is most commonly used with regression models, namely, least squares. This estimation method is derived by using the method of moments, ... in terms of economic theory. The variables, income and consumption, do in- ...

### **Regression Models - Ð‘Ð“Ð-Ð£**

This estimation method is derived by using the method of moments, which is a very general principle of estimation that has many applications in econometrics. The most elementary type of regression model is the simple linear regression model, which can be expressed by the following equation:  $y_t = \hat{\beta}_1 + \hat{\beta}_2 X_t + u_t$ .
