Parents: Monitor the amount of time and the time of day your children spend playing video games and using technology. Caution: Technology use can have negative affects on the body, and may affect sleep and concentration. Dunckley (2011) indicated when video games and electronic devices are used in the dark, the unnatural brightness of the screen inhibits the body from producing melatonin, the ...

Definition. The term problem solving means slightly different things depending on the discipline. For instance, it is a mental process in psychology and a computerized process in computer science. There are two different types of problems, ill-defined and well-defined: different approaches are used for each.
